

LABOUNTY®

2024 PRODUCT CATALOG

Selection, Innovation, Performance

The leader in mobile shears
and the most expansive
assortment of demolition
attachments in North America

YOUR TRUSTED PARTNER IN THE SCRAP AND DEMOLITION INDUSTRY

LaBounty has supplied the most reliable shear and demolition attachments to the market since 1973. When LaBounty invented the mobile shear in 1977, it drastically improved metal and concrete processing and transformed an entire industry.

With business output and efficiency top of mind, LaBounty continues to deliver mechanical and digital innovations that put customers at the forefront of productivity. Backed by one of the industry's best warranties and a world-class service and support team, users can spend time focusing on what matters most: because we know it's what's on the ground at the end of the day that counts.

80+ DEALERS GLOBALLY

**50+ YEARS IN SCRAP
& DEMOLITION INDUSTRY**

**WORLD CLASS
PRODUCT SUPPORT**

LABOUNTY PRODUCT SUPPORT

When you buy a LaBounty attachment you become part of an exclusive group of strategic partners. We take pride in backing up our world-class products with the industry's most technologically advanced support team.

- In order to quickly respond to your installation, service and parts requirements our dedicated factory support team is available by phone at **833-723-1843** or email at **Labountyparts@sbdinc.com**.
- When you need on-site support our team of field service technicians are strategically placed in the United States to respond to your technical support and training requests.
- For deeper product training, we offer LaBounty training upon request and can cater to your needs. Please contact your LaBounty rep for more information.

**For up-to-date regional contact information,
please visit:**

SELECTION. INNOVATION. PERFORMANCE.

LaBounty was founded in 1973 by Roy LaBounty in Two Harbors, Minnesota. After constructing numerous Federal Forest roads using the equipment available at the time, Roy LaBounty realized the need for improved methods of removing trees and handling rocks. He subsequently retired from contracting and founded LaBounty Manufacturing.

The Contractor Grapple (HDR) was the original attachment developed by LaBounty Manufacturing. It was one of the first attachments, other than a bucket, designed for hydraulic excavators.

In 1978, LaBounty invented the first Hydraulic Shear, transforming the process of downsizing steel and making the manual method safer and more efficient for the worker. Since the beginning, LaBounty has continued to revolutionize the industry with innovative specialty excavator attachments for the scrap and demolition markets

MOBILE SHEARS

FULL PROTECTION - LESS MAINTENANCE, MORE UPTIME

Patent Pending Dual Max™ Indexable Protection

The industry's only full-protection, indexable, piercing tip that doubles tip-blade life.

Up to 10% More Force

The new MSD Legend has enhanced jaw geometry resulting in up to 10% more cutting force at the apex compared to prior model.

LEGEND SERIES

FEATURES & BENEFITS

The objective was simple: reduce maintenance and boost productivity. As a result, productivity and uptime were optimized. LaBounty® shears have demonstrated their effectiveness in scrap metal processing, bridge deconstruction, and industrial demolition for many years. We are thrilled to unveil the Legend Series Mobile shear, which includes the industry's exclusive fully protected and indexable mobile shear tip - the Dual Max™ piercing tip.

*Model shown uses optional equipment.

*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

** Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

****Legacy B-Series, not Saber Series Shear.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

REPLACEMENT BLADE KITS

GET THE HIGHEST QUALITY REPLACEMENT BLADE KITS FOR YOUR LABOUNTY® AND GENESIS® MOBILE SHEARS

Ni LABOUNTY HIGH NICKEL

For maximum blade edge life, and less downtime for maintenance, turn to LaBounty's Ni blades which contain a 4% Nickel content. Our high Nickel primary and secondary blades are available for most models of LaBounty's MSD Legend and Saber Series Shears.

LABOUNTY PREMIUM

LaBounty Premium blades have been designed and time tested in an entire spectrum of applications; resulting in the perfect materials and heat treatments to insure you put more scrap on the ground year after year. Our Premium blades are available for all models of LaBounty's MSD Saber and Legend Series Shears.

Genesis®

Haven't converted all your shears to LaBounty? LaBounty stocks blades that are compatible with many different models of Genesis® mobile shears.

DEMOLITION ATTACHMENTS

UNIVERSAL PROCESSORS

THE ULTIMATE MULTI-TASK TOOL

The next generation of award winning universal processors feature the industry's best power-to-weight ratio for uncompromising power, control, and versatility. These universal processors have multiple jaw set options which allows processing of a wide range of materials using a single tool.

JAW TYPES

CHOOSING THE RIGHT JAW

CONCRETE CRACKING JAW (ON DISPLAY) - CC

CC JAW

Effectively breaks large, oversized concrete structures such as abutments and beams, making it ideal for primary demolition tasks. The entire jaw is constructed with high-grade, abrasion-resistant steel. Swift Lock teeth have been improved to enable quick changeover and reduce downtime. Additionally, it features rebar cutting blades in the throat.

NOTE: The UPX950 Concrete Cracking jaw is designed without Swift Lock Teeth and instead features weld-in replaceable teeth.

UPX 450 WITH CONCRETE CRACKING JAWS

CONCRETE PULVERIZER JAW - CP

CP JAW

Ideal for demolishing concrete and segregating rebar with utmost efficiency. Its Swift Lock teeth have been enhanced to enable swift transitions and minimize unproductive periods. The jaw is constructed from top-notch, abrasion-resistant steel, and features rebar cutting blades located in the throat for added convenience.

NOTE: The UPX950 and UPX750 Concrete Cracking jaw are designed with weld-in replaceable teeth, which eliminates the need for Swift Lock Teeth. However, the UPX450 CC jaw, being the largest, features Swift Lock Teeth.

UPX 950 WITH CONCRETE PULVERIZER JAWS

SHEAR JAW - SH

SH JAW

Capable of severing rebar and structural steel, such as I-beams, H-beams, pipes, and more. Its pivot components have been upgraded for greater longevity, while its patented cutting blade system offers superior performance and lessens the need for maintenance.

[CLICK HERE TO WATCH VIDEO OF UPX JAW SWAP](#)

MULTI-JAW DEMOLITION TOOL

SINGLE-CYLINDER VERSATILITY

The MRX takes versatility to the next level with its three interchangeable jaws - a concrete pulverizer, concrete cracker, and shear - making it the ideal solution for primary and secondary demolition needs. Additionally, the MRX boasts a short center of gravity and 360-degree rotation, providing optimal maneuverability.

SHEAR JAW - SH

MOBILE ROTATING PULVERIZERS

PULVERIZE WITH POWER & SPEED

The MRP is a versatile tool that enables users to handle primary and secondary demolition projects with ease. With a short center of gravity and 360-degree rotation, it offers optimal maneuverability, while the jaw's design facilitates improved penetration and rapid material downsizing. Dual rotation motors provide superior holding power and durability, and replaceable wear areas encourage longevity and reduced maintenance.

*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

** Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

MOBILE DEMOLITION PROCESSORS

PROVEN CRUSHING & CRACKING POWER

The LaBounty Mobile Demolition Processors (MDP) is a highly powerful attachment for crushing and processing concrete in both primary and secondary demolition. The MDP provides **unmatched power-to-weight** for crushing the hardest concrete with smaller excavators, as compared to the competition. With patented Swift Lock Teeth makes maintenance quick and easy. The MDP design is based on the time-tested LaBounty shear and carries forward the legendary performance and durability that only LaBounty can deliver.

*Speed valve not available on MDP 20 or MDP 27

Model	Jaw	Weight*		Jaw Opening		Jaw Depth		Reach**		Min Excavator Weight - 3rd Member***	
		lbs	kg	in	mm	in	mm	ft	m	lbs	m Tons

MOBILE HYDRAULIC PULVERIZERS

MAXIMUM CRUSHING POWER

Designed for high efficiency secondary demolition and concrete recycling, the LaBounty Mobile Hydraulic Pulverizers (MHP) offer **industry-leading power-to-weight ratio** with large jaw capacities. The all-new MHP design has been optimized to pick-up, crush, and separate rebar from concrete faster than ever before thanks to high-tip forces, a large jaw, and fast cycle times.

Model	Weight*		Jaw Opening		Jaw Width		Reach**		Min Excavator Weight - 3rd Member***	
	lbs	kg	in	mm	in	mm	ft	m	lbs	mTons

CONCRETE PULVERIZERS

MINIMAL INVESTMENT, PROVEN RESULTS

The Concrete Pulverizers (CP) design efficiency uses existing excavator hydraulics for maximum crushing power with minimal investment. Providing controlled demolition and recycling of concrete bridge decks, walls, floor slabs, foundations, silos, culverts, pillars, encased beams, pre-cast structures, and railings.

- CPs feature custom lever arms to provide maximum crushing power.
- CPs use existing excavator hydraulics – no additional circuits are required. A movable front jaw, actuated by the excavator’s bucket cylinder, closes into the stationary back jaw. The back jaw is pinned in place with a position arm which is pinned to a mounting pad welded on the lower surface of the excavator’s stick.
- 100% welds around heavy torque tubes to minimize torsional stresses.
- Swift Lock Pin on replaceable tooth system are standard on all CP models.

Model	Weight		Jaw Opening*		Jaw Depth		Min Excavator Weight - 3rd Member	
	lbs	kg	in	mm	in	mm	lbs	m Tons
CP 40**	2,900	1,300	30	760	25	640	35,000	16
CP 60**	3,000	1,400	36	910	27	690	46,000	21
CP 80**	4,500	2,000	42	1070	29	740	64,000	29
CP 100**	6,200	2,800	48	1220	35	890	88,000	40
CP 120**	10,000	4,500	54	1370	40	1020	110,000	50

*Jaw openings vary based on excavator specific geometry.

** Cannot be used with QC

MOUNTED BREAKERS

HARD HITTING RELIABILITY

The LaBounty breaker line is designed for all day, everyday use in the most demanding applications. With heavy-duty housing designs and the latest technologies standard on most models, these breakers are destined to become the tool of choice for primary and secondary demolition, trenching, tunneling and boulder breaking.

FEATURES & BENEFITS

*applicable for 4035 and above breakers only

“With the LaBounty hammer we were able to hammer this stuff out in no time. It’s one of the hardest hitting hammers I’ve ever run, and I’ve run a lot of hammers.”
 Harrison Usher, DECO (Demolition Environmental Co.)

MATERIAL HANDLING

MOBILE DEMOLITION GRAPPLES

HANDLE, SORT & LOAD WITH PRECISION

The Mobile Demolition Grapple (MDG) is the ultimate tool for demolition, material handling, sorting, and loading. The continuous 360° high-torque rotation and synchronized jaw design combine to provide **enhanced material control**.

Model	Weight*		Opening		Jaw Width		Jaw Capacity**		Min Excavator Weight - 3rd Member***	
	lbs	kg	in	mm	in	mm	yd ³	m ³	lbs	m Tons
MDG 70	900	400	59	1,500	28	710	0.3	0.2	11,000	5
MDG 140	1,900	900	71	1,800	31	790	0.5	0.4	22,000	10
MDG 160	2,400	1,100	77	1,960	35	890	0.8	0.6	29,000	13

MDG 310	4,200	1,900	87	2,210	47	1,190	1.2	0.9	55,000	25
MDG 400	6,000	2,700	87	2,210	54	1,370	1.4	1.1	66,000	30

* Weight excludes excavator mounting bracket.

**Capacity will vary depending on the make up of the material being handled.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

CONTRACTOR GRAPPLES

THE ORIGINAL AND STILL THE BEST

With a proven design and a new mounting geometry, Universal HDR Grapples have been engineered to withstand rough usage and it's enhanced design includes a two-tine moveable upper half and a stationary lower half with three-tines. As the industry's go-to workhorse for more than 50 years, the HDR Series Contractor Grapples are still Made in the USA with global materials. This grapple is remarkably versatile, making it the preferred choice for various applications, from residential/commercial demolition and land clearing to scrap, rock, and waste handling.

ENHANCED DESIGN

Modernize the way you arm your fleet for material handling with our Universal HDR Grapple, featuring an enhanced design.

Model	Weight*		Jaw Opening (min)**		Closed Grip Ø (min)		Capacity**		2-Tine Width		3-Tine Width		Min Excavator Weight - 3 rd Member***	
	lbs	kg	in	mm	in	mm	yd ³	m ³	in	mm	in	mm	lbs	m Tons
