

INDUSTRIAL TOOLS & ATTACHMENTS

YOUR TRUSTED PARTNER IN THE SCRAP AND DEMOLITION INDUSTRY

LaBounty has supplied the most reliable shear and demolition attachments to the market since 1973. When LaBounty invented the mobile shear in 1977, it drastically improved metal and concrete processing and transformed an entire industry.

With business output and efficiency top of mind, LaBounty continues to deliver mechanical and digital innovations that put customers at the forefront of productivity. Backed by one of the industry's best warranties and a world-class service and support team, users can spend time focusing on what matters most: because we know it's what's on the ground at the end of the day that counts.

50+ YEARS IN SCRAP & DEMOLITION INDUSTRY

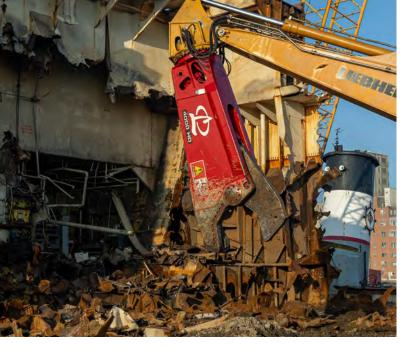

WORLD CLASS PRODUCT SUPPORT

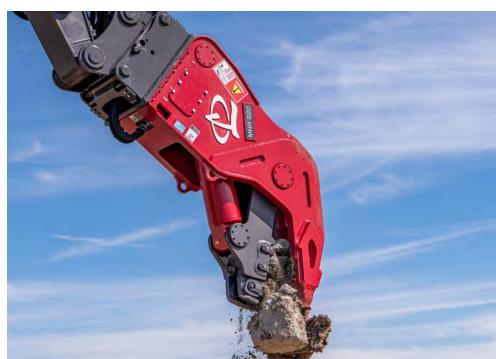

LABOUNTY PRODUCT SUPPORT

When you buy a LaBounty attachment you become part of an exclusive group of strategic partners. We take pride in backing up our world-class products with the industry's most technologically advanced support team.

- In order to quickly respond to your installation, service and parts requirements our dedicated factory support team is available by phone at 833-723-1843 or email at Labountyparts@sbdinc.com.
- When you need on-site support our team of field service technicians are strategically placed in the United States to respond to your technical support and training requests.
- For deeper product training, we offer LaBounty training upon request and can cater to your needs. Please contact your LaBounty rep for more information.

For up-to-date regional contact information, please visit:

SELECTION. INNOVATION. PERFORMANCE.

Founded in 1973 by Roy LaBounty in Two Harbors, Minnesota to provide specialty excavator attachments to the scrap and demolition markets.

Purchased in 1992 by The Stanley Works (now Stanley Black & Decker) to compliment a line of demolition attachments in the Stanley Hydraulic Tools business (now Stanley Infrastructure).

MATERIAL HANDLING ATTACHMENTS

Patent Pending Dual Max[™] Indexable Protection

The industry's only full-protection, indexable, piercing tip that doubles tip-blade life.

Up to 10% More Force

The new MSD Legend has enhanced jaw geometry resulting in up to 10% more cutting force at the apex compared to prior model.

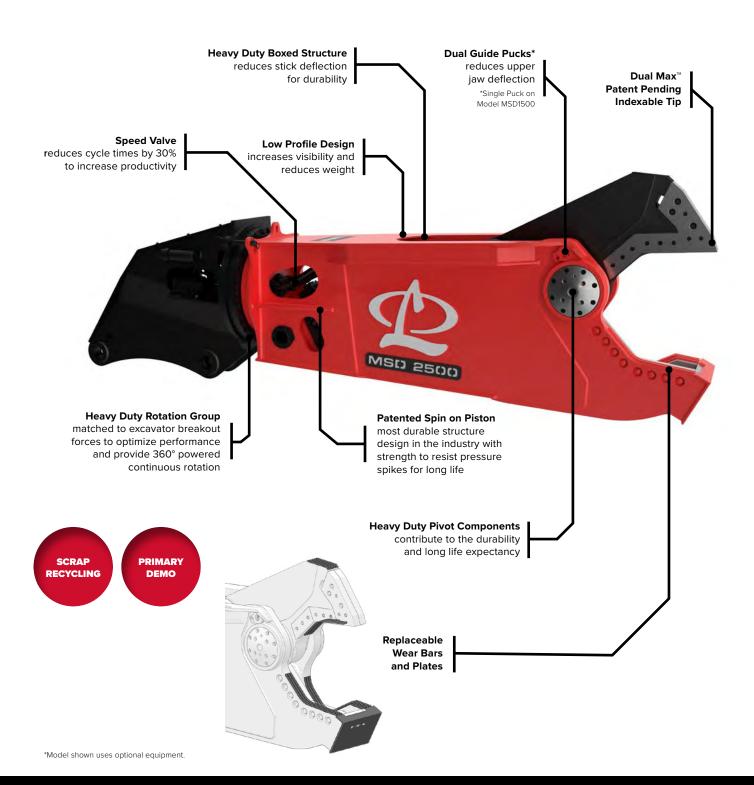

LEGEND SERIES

FEATURES & BENEFITS

LaBounty shears have proven themselves in scrap metal processing, bridge deconstruction, and industrial demolition for decades.

BLS SERIES - BUCKET LINKAGE SHEARS

| Model | Wei | ght | Jaw O | Jaw Opening* | | Depth | Min Excavator Weight - 3rd Member | | |
|----------|-------|-------|-------|--------------|----|-------|--------------------------------------|-------|--|
| | lbs | kg | in | mm | in | mm | lbs | mTons | |
| BLS 2000 | 2,900 | 1,300 | 20 | 510 | 20 | 510 | 44,000 | 20 | |
| BLS 3000 | 4,800 | 2,200 | 22 | 560 | 23 | 580 | 66,000 | 30 | |

^{*}Jaw openings vary based on excavator specific geometry.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

^{**} Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

^{***} Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

^{****}Legacy B-Series, not Saber Series Shear.

DESTROYER™ SERIES

FEATURES & BENEFITS

Built for the harshest jobs, LaBounty's Destroyer Class Shear boasts integrated reinforcement and superior protection to minimize downtime and maximize productivity. Not only stronger, the Destroyer can take on bigger jobs so you can put more on the ground.

REPLACEMENT BLADE KITS

GET THE HIGHEST QUALITY REPLACEMENT BLADE KITS FOR YOUR LABOUNTY® AND GENESIS® MOBILE SHEARS

For maximum blade edge life, and less downtime for maintenance, turn to LaBounty's Ni blades which contain a 4% Nickel content. Our high Nickel primary and secondary blades are available for most models of LaBounty's MSD Legend and Saber Series Shears.

LABOUNTY. PREMIUM

LaBounty Premium blades have been designed and time tested in an entire spectrum of applications; resulting in the perfect materials and heat treatments to insure you put more scrap on the ground year after year. Our Premium blades are available for all models of LaBounty's MSD Saber and Legend Series Shears.

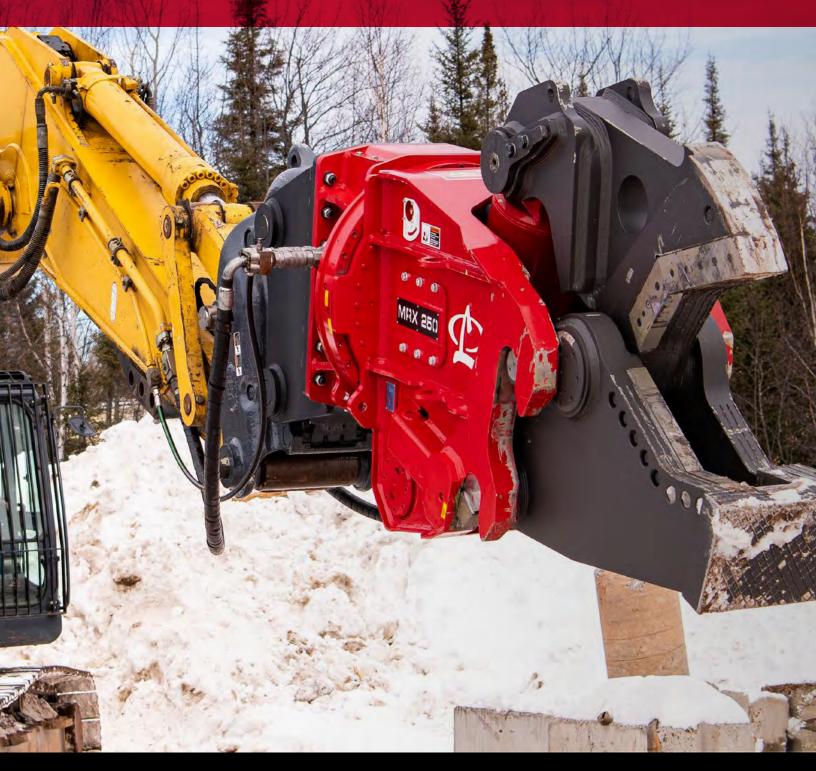

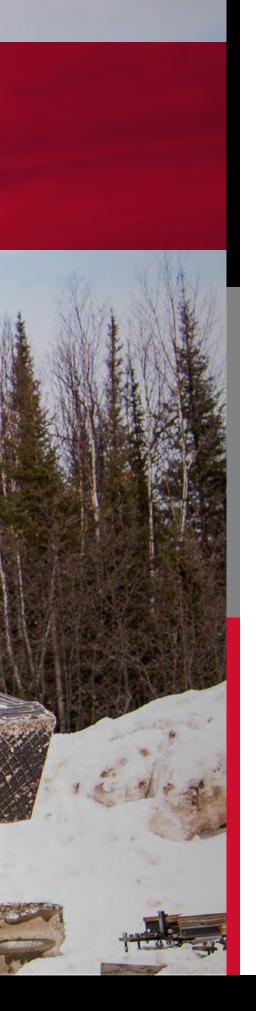

Genesis®

Haven't converted all your shears to LaBounty? LaBounty stocks blades that are compatible with many different models of Genesis® mobile shears.

DEMOLITION ATTACHMENTS

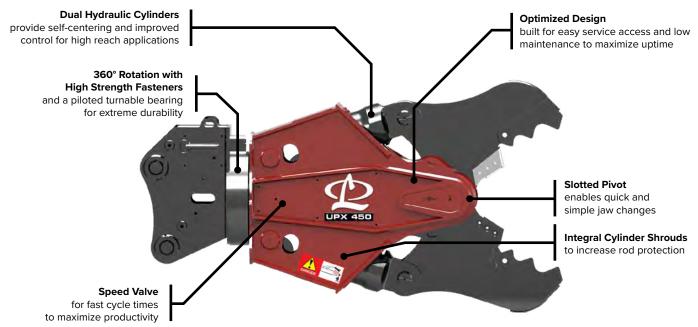

UNIVERSAL PROCESSORS

THE ULTIMATE MULTI-TASK TOOL

The next generation of award winning universal processors feature the industry's best power-to-weight ratio for uncompromising power, control, and versatility. These universal processors have multiple jaw set options which allows processing of a wide range of materials using a single tool.

JAW TYPES

CHOOSING THE RIGHT JAW

CONCRETE CRACKING JAW - CC

Breaks large, oversized concrete (abutments, beams, etc.). Ideal for primary demolition applications. High grade, abrasion resistant steel used in entire jaw. Improved Swift Lock teeth for quick changeover and reduced downtime. Rebar cutting blades in throat.

NOTE: UPX950 Concrete Cracking jaw does not contain Swift Lock Teeth (weld in replaceable).

UPX 450 WITH CONCRETE

CONCRETE PULVERIZER JAW - CP

CP JAW

Excellent for crushing concrete and separating out rebar. Improved Swift Lock teeth allow for quick changeover and reduced downtime. High grade, abrasion resistant steel used in entire jaw. Rebar cutting blades in throat.

NOTE: UPX950 Concrete Pulverizer jaw does not contain Swift Lock Teeth (weld in replaceable).

UPX 950 WITH CONCRETE PULVERIZER JAWS

SHEAR JAW - SH

Cuts rebar and structural steel such as I-beams, H-beams, pipe, etc. Improved pivot components for longer life and patented cutting blade system ensure better performance and reduced maintenance.

CLICK HERE TO WATCH VIDEO OF UPX JAW SWAP

UPX 450 WITH SHEAR JAWS

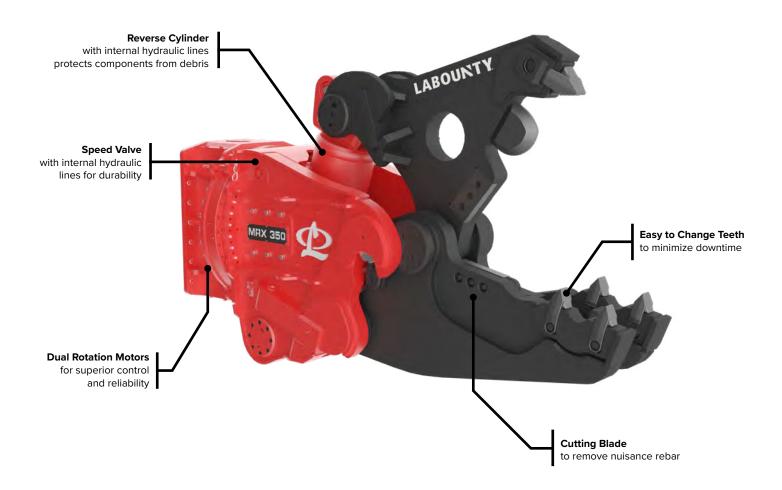

MULTI-JAW DEMOLITION TOOL

SINGLE-CYLINDER VERSATILITY

Versatility is taken to a whole new level with the MRX. With three different interchangeable jaws – a concrete pulverizer, concrete cracker, and shear – the MRX is the answer to most primary and secondary demolition needs. The MRX is also equipped with a short center of gravity and 360-degree rotation for optimal maneuverability. The interchangeable jaws' designs facilitate improved penetration and rapid material downsizing, along with dual rotation motors* for superior holding power and replaceable wear areas for longevity and minimized maintenance.

*standard on MRX 350 and above

CONCRETE CRACKER - CC

SHEAR JAW - SH

^{**} Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

^{***} Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

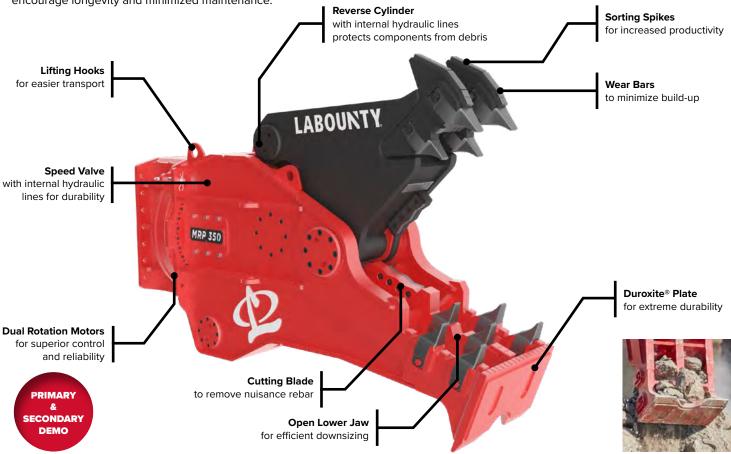

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

MOBILE ROTATING PULVERIZERS

CRACK AND PULVERIZE WITH POWER & SPEED

With the MRP, users can take on diverse primary and secondary demolition projects with one, versatile tool. A short center of gravity and 360-degree rotation gives the MRP optimal maneuverability, while the jaw's design facilitates improved penetration and rapid material downsizing. Dual rotation motors offer superior holding power and durability, and replaceable wear areas encourage longevity and minimized maintenance.

MOBILE DEMOLITION PROCESSORS

PROVEN CRUSHING & CRACKING POWER

The LaBounty Mobile Demolition Processors (MDP) is a highly powerful attachment for crushing and processing concrete in both primary and secondary demolition. The MDP provides **unmatched power-to-weight** for crushing the hardest concrete with smaller excavators, as compared to the competition. With patented Swift Lock Teeth makes maintenance quick and easy. The MDP design is based on the time-tested LaBounty shear and carries forward the legendary performance and durability that only LaBounty can deliver.

MOBILE HYDRAULIC PULVERIZERS

MAXIMUM CRUSHING POWER

Designed for high efficiency secondary demolition and concrete recycling, the LaBounty Mobile Hydraulic Pulverizers (MHP) offer **industry-leading power-to-weight ratio** with large jaw capacities. The all-new MHP design has been optimized to pick-up, crush, and separate rebar from concrete faster than ever before thanks to high-tip forces, a large jaw, and fast cycle times.

CONCRETE PULVERIZERS

MINIMAL INVESTMENT, PROVEN RESULTS

The Concrete Pulverizers (CP) design efficiency uses existing excavator hydraulics for maximum crushing power with minimal investment. Providing controlled demolition and recycling of concrete bridge decks, walls, floor slabs, foundations, silos, culverts, pillars, encased beams, pre-cast structures, and railings.

- CPs feature custom lever arms to provide maximum crushing power.
- CPs use existing excavator hydraulics no additional circuits are required. A movable front jaw, actuated by the
 excavator's bucket cylinder, closes into the stationary back jaw. The back jaw is pinned in place with a
 position arm which is pinned to a mounting pad welded on the lower surface of the excavator's stick.
- 100% welds around heavy torque tubes to minimize torsional stresses.
- Swift Lock Pin on replaceable tooth system are standard on all CP models.

MOUNTED BREAKERS

HARD HITTING RELIABILITY

The LaBounty breaker line is designed for all day, everyday use in the most demanding applications. With heavy-duty housing designs and the latest technologies standard on most models, these breakers are destined to become the tool of choice for primary and secondary demolition, trenching, tunneling and boulder breaking.

FEATURES & BENEFITS

Stroke Selector*

to increase blow rate and decrease energy for various applications as a way to maximize efficiency

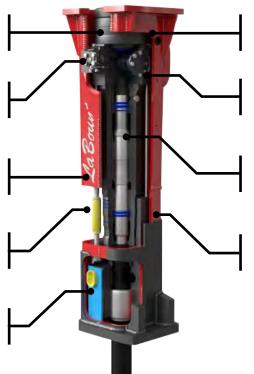

Heavy Duty Housings and Wear Plates

for extreme durability in the harshest of applications

Vibration Dampening Tie-Rods

maximizes uptime

Underwater Capable to increase versatility

Fixed Impact Energy Valve

allows for use on a wider range of carriers

Idle Blow Protector

prevents blank firing

Hydraulic Overflow Protector

for added durability

Sound Suppressed Housings

dampen operating volume

*applicable for 4035 and above breakers only
